

To our Residents of Hallenbeck Highway:

Contractors for the Lenawee County Drain Commission Project for the Rollin and Woodstock Sanitary Drain Lift Station Improvements will commence soon in the area. This improvement to the aging sewer system was made possible by Clean Water State Revolving Funds and is a necessary improvement for the system.

SCHEDULE: Work is scheduled to begin November 21st, 2022 and is anticipated to be completed January 20th, 2022.

Closure: Hallenbeck Highway will be closed at 6891 Hallenbeck Hwy during the construction. Please plan your driving routes and drive time to accommodate this closure. Slusarski Excavating will be maintaining access to all homes and driveways other than having this closure to through traffic. If any specific measures are required, they will work with the individual home owner to ensure access is maintained. Thank you for your patience and cooperation during this project.
