

To our Residents on and near Oakshade Dr:

Contractors for the Lenawee County Drain Commission Project for the Rollin and Woodstock Sanitary Drain Lift Station Improvements will begin working in the area. This improvement to the aging sewer system was made possible by Clean Water State Revolving Funds and is a necessary improvement for the area.

SCHEDULE: Work is scheduled to begin March 8, 2023 and is anticipated to be completed April 14, 2023.

FREQUENTLY ASKED QUESTIONS:

- Will I be able to get access my home?
 - Slusarski Excavating will be maintaining access to all homes and roads during construction. If any specific measures are required, they will work with the individual home owner to ensure access is maintained.
- Will I be able to use my water and sewer during construction?
 - The project does not have any required stoppage to your sewer and water service. If for some reason during construction this does become necessary effected residents will be notified directly.
